

Gibson's Lodge Nursing Home

– a place to call home

Residential and nursing care with a truly
personal touch

A home is such a personal place – it's somewhere that you feel welcome and safe.

It's a space that is personal to you, where you feel looked after, loved and able to be yourself.

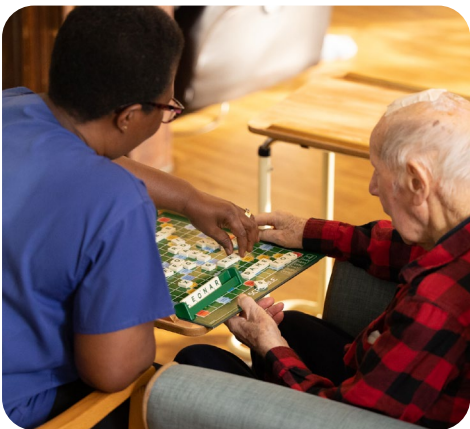

That's something we recognise at Prime Care Group – where we provide exceptional levels of nursing care and a home from home environment, at each of our three residential homes.

Gibson's Lodge Nursing Home

Situated in a quiet, leafy suburban street in Streatham, Gibson's Lodge Nursing Home provides a safe and comfortable environment for residents, with a happy and homely atmosphere.

Offering 52 beds, we are close to the park but still conveniently located for all transport links, shops and other local facilities. What makes Gibson's Lodge unique is our cultural diversity with residents and staff from a range of backgrounds.

Who we care for:

We specialise in caring for adults with advanced dementia and a range of mental health issues.

We are also able to care for residents that other services have been unable to manage. Our caring staff are all trained to manage challenging behaviour, not only keeping our residents safe but also bringing harmony to their lives.

Our menus:

Our resident chef is able to provide delicious, home-cooked meals for a range of cultures including British, Caribbean and African.

Our menus always include a choice of dishes from three continents, so whether it's jerk chicken with rice and peas or a traditional roast dinner and bread and butter pudding, there's always something to tempt our residents' taste buds.

Activities for residents:

We offer a range of weekly activities and a rehabilitation programme which includes:

- Movie afternoons
- Reminiscence therapy
- Poetry
- Arts and crafts
- Regular social events

Friends and family are always welcome to visit and participate in any activity that is delivered by our home's activity's coordinator.
